ACADEMIC PROJECTS

- **AI Courtroom Simulation Game**
 - Court Clover is an AI-powered courtroom simulation game where players argue legal cases against an AI judge or opposing lawyer. It features dynamic case generation, a wooden-themed UI, and an interactive argument system for an immersive experience.
 - Key Skills Involved: C#, Unity, Python, AI Integration, Game Design, UI/UX, Sound Effects.
- **OCCAIO**
 - Is an event management app that automates event planning.
 - The app creates detailed event plans based on cultural preferences, user input, budget, and event type. It recommends event packages using a recommendation algorithm that considers user budget and vendor information stored in a database.
 - Sellers can list their services on the platform, agreeing to quality standards.

HOBBIES

- Running.
- Reading Books.

ACHIEVEMENTS

- Secured 12th Place in CSAY CTF.
- Secured 30th Place in ByPASS CTF.
